Gentlemen:

DOCKET FILE COPY ORIGINAL

The No Call List ruling for the State Of Wisconsin is something consumers worked hard for and very much appreciate. It will be a major disservice to have this law changed to benefit the telemarketer industry. Please put the wishes of the ordinary citizens above the lobbyists and do not allow this most unwelcome intrusion back into our lives. Citizens pay for the telephone and should have the right to choose how it is used. Please allow the citizens of Wisconsin to continue to decline nuisance calls.

Thank you,

*Els Purvis*
